COVID IN THE COMMUNITY UPDATE

Hanmer Springs Health Centre, Friday 6 May 4 pm

The number of COVID-19 positive cases reported over the last week has increased this week in our community, but not as high as a couple of weeks ago.

These people will be self-isolating, as well as any household contacts living with them. **Household contacts** need to have a **Rapid Antigen Test (RAT)** for COVID-19 on **days 3 and 7** of their isolation.

if you are doing your own Rapid Antigen Testing record your results, whether positive or negative, by:

1. Going online and recording it at <https://mycovidrecord.nz> OR
2. Calling **0800 222 478** and choose **option 3**

Let's remember to be kind and help others in these challenging times

There are plenty of ways you can help friends and whanau who are self isolating such as:

- ✓ Contactless drop off supplies they need, like groceries, home baking or medicines
- ✓ Pick up rapid antigen tests on their behalf
- ✓ Give them a call on the phone and have a chat
- ✓ Talk about a plan in case they get sicker and how you may be able to help, like caring for pets

To help keep yourself well and minimise the spread of COVID-19 we encourage you to:

- ✓ If you have symptoms, book a FREE supervised Rapid Antigen Test and short consultation with us. Simply call our reception team on 03 315 7503.
- ✓ Wear a surgical or N95 mask and show your vaccination pass when asked to.
- ✓ Keep up healthy habits such as washing hands, physical distancing and staying home if you are sick.

We are contacting our positive patients, but whether you are registered with us or not - if you are **feeling unwell or need to see us for any reason**, please **call us on 03 315 7503**. We are **here for all our community**.

Take care.

VISITING PROFESSIONALS

Plunket – Claire – second Monday of every month

FLU AND COVID-19 VACCINATION CLINICS

We have walk-in **FLU** and **COVID-19** Clinics this week as follows:

- **Wednesday 11th May, 10am – 12pm at the rear car park of Hanmer Springs Health Centre, for age 5-11 and 12+**

Getting a COVID-19 vaccine if you've had COVID-19

It's now recommended by the Ministry of Health that you wait 3 months after you test positive for COVID-19 before getting any COVID-19 vaccination. This recommendation is for all ages and applies to all COVID-19 vaccines available in New Zealand.

Waiting for 3 months after you test positive for COVID-19 can give you better protection and an increased immune response to the vaccine dose

However, you can still have your FLU vaccination when you have completed your COVID-19 isolation and symptom free

It's that time again.....Patient Experience Survey We want to hear your views!

Over the next few weeks you may receive an email or text message inviting you to take part in a patient experience survey about your recent experience at the Hanmer Springs Health Centre. By taking part in the survey, you would be helping to improve the care you and your whānau receive, as well as care and access to health services in local communities across New Zealand. Taking part in the survey is voluntary and anonymous. Please ensure the contact details we have for you are up to date. This can be done by contacting the Reception Team on 03 315 7503.

If you call our clinic phone out of hours, your call is always answered by a registered nurse who will assess your needs, offer advice or, if required, pass the call to our on-call clinician. It can take several minutes to answer the phone so please be patient and hold, and follow the voice prompts carefully

COVID CASES in Hurunui District

Sunday 189 (287, 206, 227, 271, 330 previous weeks)

Canterbury 8809 (10,075, 9,335, 11,928, 15,349, 19,115 & 21,764 previous weeks)

Canterbury District Health Board figures Sunday midday

1. The remote island of Tristan da Cunha is 2400 ks from the nearest mainland country. What country is it?
2. What was the name of the first scientist to split the atom?
3. The Casa Rosada (PinkHouse) is the executive mansion for the president of which country?
4. Chomolunga or Sagarmartha are other names for which giant landmark?
5. Lying 258 metres below sea level which Middle Eastern city is the world's lowest?
6. The African country of Benin was formerly a colony of which European country?
7. Was Tennessee the real first name of playwright Tennessee Williams?
8. El Monumento a la Mitad del Mundo (Middle of the World Monument) lies directly on the Equator in which country?
9. There are 22 official languages in India. Which two of them are designated as the languages of government?
10. The name of which South American country is derived from the Latin word for 'silver'?
11. What was the name of the treaty that officially ended World War I?
12. What is a maltemmi?
13. What is the brightest star in the night sky?
14. Who was the youngest male to win the Wimbledon tennis title?
15. The city of Volgograd was once known as Tsaritsyn but it had a different name in the Soviet era - what was it?
16. A gentleman named Mr Chicken was the last private resident at which famous London address?
17. The town of Coober Pedy produces about 80% of the world's supply of which gemstone?
18. In 1946 which national leader renounced any claims to divinity?
19. Edward Teach (1680 -1718) was better known to history by what name?
20. The capital of a West African country is named after a former American president. Which country and what's its capital?
21. The Baron Haussmann was responsible for major renovations, redesigning and rebuilding of which European city in the 1860s?
22. What is the highest capital city in the world?
23. What is the lowest capital city in the world?
24. Which two cities merges to form a new city in 1873 and is now a European capital?
25. Ninety degrees north is the address of what location?

Classic Potato Latkes

INGREDIENTS

2 large potatoes (about 500g), scrubbed and cut lengthwise into quarters
1 large onion (250 g), peeled and cut into quarter
2 large eggs
½ cup all-purpose flour
1 teaspoon fine sea salt), plus more for sprinkling
1 teaspoon baking powder
½ teaspoon freshly ground black pepper
Safflower or other oil, for frying

PREPARATION

Using a food processor with a coarse grating disc, grate the potatoes and onion. Transfer the mixture to a clean dishtowel and squeeze and wring out as much of the liquid as possible.

Working quickly, transfer the mixture to a large bowl. Add the eggs, flour, salt, baking powder and pepper, and mix until the flour is absorbed.

In a medium heavy-bottomed pan over medium-high heat, pour in about ¼ inch of the oil. Once the oil is hot (a drop of batter placed in the pan should sizzle), use a heaping tablespoon to drop the batter into the hot pan, cooking in batches. Use a spatula to flatten and shape the drops into discs. When the edges of the latkes are brown and crispy, about 5 minutes, flip. Cook until the second side is deeply browned, about another 5 minutes. Transfer the latkes to a paper towel-lined plate to drain and sprinkle with salt while still warm. Repeat with the remaining batter.

Corn Fritters

INGREDIENTS

2 large eggs
⅔ cup whole milk
1 teaspoon fine sea salt
½ teaspoon minced garlic
1 teaspoon freshly ground black pepper
1 teaspoon ground chilli
1 cup all-purpose flour
2 teaspoons baking powder
3 cups corn kernels, fresh or frozen (or 440 g can)
¼ cup chopped spring onion greens
1 cup sharp Cheddar, shredded
Vegetable oil, coconut oil or shortening, for frying

PREPARATION

In a large bowl, whisk together the eggs, milk, salt, garlic, black pepper and chilli. Whisk in the flour and baking powder until just combined. Stir in the corn, scallions and Cheddar.

Heat a cast-iron skillet over medium-low and add enough oil to generously coat the bottom of the skillet.

Once the oil is shimmering hot, add a heaping tablespoon of the batter to the skillet. Use the back of the spoon to flatten it into a round patty. Repeat to fry 3 to 4 fritters at once. Fry on each side until golden, about 2 minutes, then cook for an additional 2 minutes. Add more oil as needed. Remove from the skillet and transfer to a paper towel-lined baking sheet. Repeat until all fritters are fried. Serve warm or at room temperature.

Dill Dipper

INGREDIENTS

2 tablespoons finely chopped dill
1 x 500ml creme fraiche
(Or you can use sour cream or even plain yogurt)
½ red onion, finely chopped
A little sea salt
1 tablespoon cream

METHOD

Mix and the ingredients together and refrigerate for ½ hour before using as a dip for the latket-s or corn fritters

May the force be with ewe

A new way to report rural crime and suspicious behaviour launched last week, May the 4th, in Waimakariri and Hurunui.

Rural Lookout is a new Police app that enables people to log suspicious activity quickly and easily using a smartphone or via a website.

It is designed to capture incidents that often go unreported, such as illegal hunting, trespassing, drones, deliberate damage, theft of fuel and stock and other suspicious incidents.

Senior Constable Tony Maw says rural communities can be reluctant or slow to report incidents.

“The ‘number 8 wire’ attitude is strong in our communities,” says Tony. “People often deal with things themselves or think Police are too busy to bother, or they wait to tell us when they bump into us – but then it’s too late.

“By offering an alternative way to report incidents, that’s quick and convenient, hopefully we’ll see an increase in reporting, which will give us a clearer picture of what’s happening in our rural communities.”

All the information submitted via the app will be entered into the police National Intelligence Application and triaged as per normal. The app doesn’t replace 111 in emergencies, nor 105 online.

The launch of the Rural Lookout app is part of a two-year trial that aims to increase reporting and take a prevention approach to reducing rural crime. The project is being managed by the Prevention Development Team and is part of the Locks, Lights and Lines of Sight initiative.

As well as the app, the trial will utilise geospatial capability to create a rural crime dashboard for the trial area. All reported crime and suspicious activity will be mapped on the dashboard, including card data, NIA occurrences, Rural Lookout reports and CCTV camera locations.

Project Manager Lisa May says the ultimate goal is to reduce rural crime through targeted prevention measures – and there are dollars attached.

“We need as much data as possible to make good investment decisions” says Lisa.

“The first step is to increase reporting. Then, we’ll use geospatial analysis to identify trends and determine what crime prevention measures could be used and where.”

Tony says his communities are excited that the initiative is being trialled in their local area.

“It’s another way we can engage with our communities and partners – the District Mayors are really excited about the trial and so are our partner agencies. It’s taken quite a long time to get here, but the hard work’s been done and now we just have to get as many people as we can using the app.”

Mayor Dan Gordon, Waimakariri says, “I think it’s a fantastic initiative and I know our rural communities who are particularly concerned around crime in their particular communities will certainly welcome it. I am delighted that we’ve got a trial here in both the Waimakariri and Hurunui Districts. I think it’s an excellent initiative from the police, and I thank them for including our communities in this. We are obviously in support of seeing this here and making sure that crime is turned around in our rural communities, so anything that does that, we’re right behind, so delighted to be able to support this being rolled out,” he says.

Mayor Marie Black, Hurunui says, “I just think this is an amazing opportunity to ensure that rural people are actively involved with preventing crime across their regions, across our district and the Hurunui.

We’re a very far-flung district, so if we can connect the dots and keep our community safer, we’re all better for it,” she says.

NZ Police release

Amuri Transport

Amuri Transport has a Hiab Driving Position available within our Freight Division based at our Culverden Depot.

Ideally the successful applicant should have the following attributes:

- Good work ethic
- Be well organised
- Can work largely unsupervised
- Customer focused
- And a “get the job done” attitude
- Minimum Class 5 Full Licence
- Wheels Tracks and Rollers
- D G Endorsement
- Hiab experience would be preferred

The role will be available for immediate start.

We offer a great working environment in this vastly growing area of North Canterbury and can offer very competitive hourly rate to the right person.

Please call Paddy on 027 2333689 or forward your CV to freight@amuritransport.co.nz

Are you feeling unwell with COVID-19 symptoms and need health advice?

Contact your general practice or Māori or Pasifika health provider – treatment and health advice for people who have tested positive for COVID-19 is free.

All other non-COVID-19 related health advice may incur usual consultation fees.

Not enrolled with a GP or other health provider?

If you are not enrolled with a GP, or other health provider, or require after hours, non-emergency COVID-19 health advice, call Healthline's COVID-19 line: **0800 358 5453**. They are available 24/7.

When to call 111

If you or the person you are caring for develops difficulty breathing, severe chest pain, fainting or becomes unconscious, call **111** immediately. **Tell the operator if you or anyone in your household has tested positive for COVID-19.**

All other welfare support

For all other non-health related support for things like financial assistance or kai, please call the COVID-19 Welfare line: **0800 512 337**. They are available 8am-8pm, 7 days a week.

*Window clean *Gutter clean *Height access
*Building washes and much more...

Hanmer Springs Trail Town

What is a trail town?

A town or village that provides trails in and around their community for locals and tourists to ride, have fun, relax, 'bathe' in the forest environment and have adventures, enjoy the high country and the hot pools

- It also provides accommodation, hospitality and other support businesses for people to enjoy a complete experience.
- The idea was built around MTB trails in USA and has extended around the world as a concept, but there are none in NZ yet.
- Becoming a Trail Town revitalises rural communities by growing outdoor tourism and small businesses. This has been proven in many places overseas. Build trails and they will come!
- **Hanmer Springs Trail Town** will be a project based not only on MTB Trails but also Walking, Horse Riding & Hiking/Tramping Trails. Three times better!

A group of keen bikers from the local MTB Club have started with this idea and hope to see it grow into a big project to increase the prosperity and opportunities for our community. Our goals are to:

- Further develop the Hanmer Forest Park trail network. It is already a destination, drawing people to Hanmer Springs from all over NZ. This provides numerous positive benefits for the community as more people stay and use the Hanmer Springs businesses during their visit
- Expand the destination profile of Hanmer Springs as a '**Trail Town**' to encourage greater use of the network and become a world-renowned destination
- Create a world class network of trails by extending the current network of all types of trails, easily accessible from the Trail Town Hub
- Link the Hanmer Forest Trails to the St James Trail network
- Help expand business opportunities and more jobs in the Hurunui as a result
- Improve health and wellness outcomes for our community

We will need to:

Lead the NZ adoption of the Trail Town brand. Nowhere has yet fully embraced the concept. We can do it better than other places which have a focus on just one trail or one type of activity:

- We will have many different activity trails at all levels of ability
- We already have accommodation and hospitality
- Trails start from the village with no transport required
- We have so much more room for future trail development
- Building trails has virtually no environmental impact
- Provides healthy, fun recreation for locals and visitors alike

Rationale = investment brings many returns

Right now the Council is asking you to "have a yarn" about the future of the Hurunui and tourism. This is to help them create a **Destination Management Plan** for the future. It will inform future funding allocations and how the development of tourism is planned in the Hurunui. Funding is insufficient at the moment to develop these ideas.

How can you help?

Spend just a few minutes to "have a yarn" on the Hurunui District Council website to tell them what you want. This Trail Town idea that we are presenting can be part of that feedback to the Council. Please give your thoughts and support to this plan.

<https://trc.mysocialpinpoint.com.au/hurunui-destination-management-plan/ideas#/>

Trail Groups

There are already many trail groups represented on the Hanmer Springs Recreational Track Network Group, which manage what we have already in partnership with the local land-owners.

To bring more trails to the Hanmer Springs Trail Town we will need bigger funding and more people and groups to be involved.

An example from the HSMTB Club

We want to build an amazing trail around Mt Isobel that will cater to the longer trail riding public. Think Dunstan Trail but much better!

It will be able to be linked in the future with the other trails already in the Hanmer Basin and the St James Conservation Area.

The **Isobel Loop** - a 46km Intermediate Trail suitable for Mountain Bikes, E-Bikes & walkers, to form a Grand Traverse of Mt Isobel with climbs to access the traverse from the village

your flu vaccination NOW!

Flu Vaccinations AVAILABLE NOW.

✔ Call or txt 020 4091 0704 to book
your flu vaccination.

✔ It's FREE for those most likely to
get very sick. If you're 65 and over,
pregnant, or have certain health
conditions like diabetes – you can get
a free flu jab. For Māori and Pacific
people, the free flu vaccination is
available from 55 years.

THE POWER OF NUMBERS AND HOW THEY STILL APPLY TODAY

1. Your parents open a KiwiSaver Account for you at your birth and put in a capital sum of \$1,000 and then contribute \$1 per day into your account, at 7.5% in a growth fund. What do you have when you retire at 70 years of age: \$459,276 (after tax). This is all about time and the power of compound interest.

2. The story about Indians selling the Island of Manhattan to the Dutch on 4 May 1626 is interesting as the land was not theirs to sell, but nevertheless they sold it for trinkets, etc, valued at \$24 or \$951.08, depending upon whose valuation you accept.

Heaven knows what this land area of 59.1 km² is presently worth, but if the \$951.08 was invested at, say, 4% for the last 396 years then it would have a present value of just over \$912 million (after tax) - this would be a lot less than the present value of the land, but it just shows what an annual interest return of \$38 at 4% will reach after 396 years.

3. The mathematical "rule of 72" is a very useful one - it states that if you divide your annual percent of return into 72 then it tells you how long an investment (before tax) takes to double. For example, you have \$10,000 invested at an interest rate of 6% compound and withdraw nothing from it, then in 12 years you will have \$20,000 (before tax). Our New Zealand Government and Treasury are effectively using this equation on many investments because it tells them the payback time - that is, the example referred to has a payback time of 12 years. If the return or yield had been 10% then the payback time would be 7.2 years. Treasury and Government also don't pay tax, so the equation is very straightforward. Many toll road investments in the USA have a payback requirement of seven years so they structure a return or yield at just on 10%.

4. Take this range of numbers: 4, 8, 12, 20, 30, 50, 100. The average (or 'mean') is 32. The median number is 20, this is based on there being as many numbers above 20 as below 20. The median tends to be used in a country's Census data. For example, the median age for the New Zealand population is currently 36.7 years for males and 38.7 years for females.

5. Keep clear of giving personal guarantees, even with family they should always be limited. In the writer's time in bank credit control, guarantees were always a pain to enforce and always a pain to experience as the Bank customer tended to change banks immediately to another bank.

6. What does your car cost to run in today's terms based on, say, a five year period:

Initial cost of \$35,000

12,000 km/year

Tank filled, say, twice a month (petrol)

Replacement value, say, \$40,000

Replaced every five years

Trade in value, say, \$20,000

What does the overall cost look like over the five year period:

(a) Running costs (fuel, repairs and maintenance, oil, etc) \$19,500

(b) Warrants, insurance, registration

\$3,800

(c) Depreciation \$20,000

Suggested total \$43,800

This calculates out at 73 cents per kilometre or \$8,760/year.

This will be a different cost structure for each family and for each car but inject your own figures. If you have two cars then run the figures for both.

7. He loves his pint of beer and she loves her white wine and they have both earned it, say:

One beer per day (\$9 x 365) \$3,285

2 bottles of wine per week \$2288

(22x2x52).

She also likes 1 latte 4 x per week \$1144

Suggested total \$6,717/year

This is an average of \$18.40/day

Yes, I know it looks high, but you run your own figures - include a tobacco cost also.

8. Private School/Public School: Lots of discussion amongst families on this subject - some financial, some emotional, some cultural, some history. Let's just look at the subject from a simple financial view point:

Key issues:

(a) Two children: boy and girl - both 13 years old.

(b) Living deep in the high country (perhaps in Hanmer Springs).

(c) Parents do the homework which comes out at \$182,000 each child for five years private school, boarding and tuition. With extra trips to town and sports costs, the school registrar calculates \$190,000 each over the five years. The average annual cost of \$76,000 per year, although the later years were on average more expensive.

(d) The parents calculated that not having the two children away from home for 40 weeks of the year would save \$4,800 each child a year, leaving a net overall annual average cost of \$74,080 in total - that is \$370,400 over the five years.

(e) Their financial advisor mentioned that if they went to the local high school and invested the total of \$74,080 each year for five years in a KiwiSaver Balanced Fund, at say 4.25%, with no further monthly contribution, then when the two children turned 30 years of age they would have a KiwiSaver investment of \$297,522 each. Mum and Dad though, did not like this alternative idea/approach: what would you have done?

From our wine correspondent A smooth dry little number with great body

William the wagon horse passed away this week aged 20 after a battle with stomach cancer. He had been in Hanmer Springs for nearly 10 years, having come down from Northland. As well as giving wagon rides in the village, William gave many people their first horse ride, and one or two folk their last ride. William is buried on a hillside looking up to the mountains with a young totara growing on top.

Know your Plastic Codes as In Hurunui 1, 2 and 5 ONLY can be Recycled

HANMER SPRINGS TRANSFER STATION
637 Hanmer Springs Road

Summer Hours

Tuesday	1 to 4 pm
Wednesday	1 to 4 pm
Friday	10 am to 1 pm
Sunday	10 am to 2 pm

Out of hours recycling facilities for paper, card, cans, plastics types 1, 2 & 5 only and glass bottles are provided; please ensure recycling is clean, loose and all lids are removed. Soft plastics (i.e. those you can scrunch in your hand) are not recyclable and must be placed in the refuse.

Kerbside refuse and recycling collection – Monday 8am

Only official refuse and recycling bags will be collected; these can be purchased from Hanmer Springs Service Station and the library and the Log Cabin & Super Liquor. Via the recycling bags clean paper, card, cans and plastics types 1, 2 & 5 only can be recycled.

If in doubt – place it in the refuse to save contaminating recycling.

Non complying bags and recycling bags containing glass and soft plastics will not be collected.

Symbol	Acronym	Full name and uses
	PET	Polyethylene terephthalate - Fizzy drink bottles and frozen ready meal packages.
	HDPE	High-density polyethylene - Milk and washing-up liquid bottles
	PVC	Polyvinyl chloride - Food trays, cling film, bottles for squash, mineral water and shampoo.
	LDPE	Low density polyethylene - Carrier bags and bin liners.
	PP	Polypropylene - Margarine tubs, microwaveable meal trays.
	PS	Polystyrene - Yoghurt pots, foam meat or fish trays, hamburger boxes and egg cartons, vending cups, plastic cutlery, protective packaging for electronic goods and toys.
	Other	Any other plastics that do not fall into any of the above categories. For example melamine, often used in plastic plates and cups.

Please Note that HDC garbage & recycling bags are no longer available from the Four Square supermarket . Henceforth, bags will only be available from Hanmer Springs Service Station, the library , The Log Cabin and Super Liquor
