COVID IN THE COMMUNITY UPDATE

Hanmer Springs Health Centre,
Sunday 26th June 2PM

We have now seen an increase in reported COVID-19 positive cases in the community numbers for the second week running.

Let's help protect the wellness of each other by:

- Getting up to date with our *vaccinations for COVID-19, flu and measles*
- *Wearing a mask indoors* whenever we are not at home
- *Staying home if we are unwell* and get tested for COVID-19
- Calling our reception team on 03 315 7503 if you have COVID-19 symptoms or just feeling unwell.

If you **perform your own Rapid Antigen Test (RAT)** for COVID-19, you should **record your results, whether positive or negative**, on the same day by:

1. Going online and recording it at <https://my-covidrecord.nz>

OR

2. Calling **0800 222 478** and choose **option 3**

If you are **living with a person who has tested positive for COVID-19** you also **need to isolate** and have a **Rapid Antigen Test (RAT)** for COVID-19 on **days 3 and 7** of your isolation.

Take care,
Hanmer Springs Health Centre

FLU AND COVID-19 - VACCINATION CLINICS

We have walk-in **FLU** and **COVID-19** Clinics this week as follows:

- Monday 27th 10am – 12pm at Hanmer Springs Health Centre, for age 5-11 and 12+

A warm and dry home can help keep you and your whānau healthy over winter, but for some, the cost of having a cosy house might break the bank.

Many homes in New Zealand are damp, cold and unhealthy. In winter, they are on average 6°C below the World Health Organization's recommended minimum indoor temperature of 18°C. A cold and damp home can increase the risk of respiratory illnesses such as asthma and serious chest infections.

Damp, draughty and poorly insulated homes are more expensive to heat.

Top Tips for keeping a healthy home this winter:

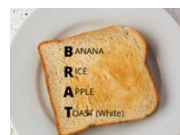

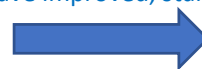

1. Insulate your house
2. Curtains mean a world of difference
3. Draught-proofing windows and doors
4. Reducing condensation
5. Getting a good heater
6. Moving furniture to free up space for the heat to adequately reach a room.
7. Airing your house out
8. Getting rid of mould

DIARRHOEA & VOMITING BUG – GOING AROUND!!! Effecting children & adults

Please follow the plan below to help with recovery of this nasty bug.

- Cease food, rest the bowel & stomach
- Avoid dairy
- Start up hydration plan:
 - (1) 1 TBS clear apple juice OR boiled water & honey EVERY 15 MINUTES
 - (2) You can buy electrolyte replacement from the pharmacy if you wish

Once symptoms have improved, start on the BRAT Diet

If you call our clinic phone out of hours, your call is always answered by a registered nurse who will assess your needs, offer advice or, if required, pass the call to our on-call clinician. It can take several minutes to answer the phone so please be patient and hold, and follow the voice prompts carefully **IN AN EMERGENCY DIAL 111**

New Defibrillator at Ferry Bridge Hanmer Attractions.

The Community Trust recently applied to the Mainland Foundation for a defibrillator to be based at Hanmer Attractions. Hanmer Attractions approached the Trust with the idea as they felt it would be good to have one out of the village to service the community living near the bridge plus close to the intersection of SHW 7.

There is an acknowledgement to Mainland Foundation and HS Community Trust on the cabinet.

Aaron from Hanmer Attractions said they will run a workshop in the coming months for local residents on the basics of CPR and AED use.

The machine is accessible 24/7 and is logged in the national database www.aedlocations.co.nz

Back country musterers 1884

Lemon Meringue Pie

This recipe is adapted from one by Chef from Alice Waters of Chez Panisse

INGREDIENTS

Flaky pie crust, enough for a 9-inch shell

THE FILLING:

2 lemons
2 eggs
3 egg yolks
6 tablespoons sugar
3 tablespoons salted butter, cut in 3 pieces
3 tablespoons unsalted butter, cut in 3 pieces

THE MERINGUE:

3 egg whites, at warm room temperature
¼ teaspoon cream of tartar
6 tablespoons superfine sugar
½ teaspoon vanilla extract

PREPARATION

Prepare the shell. Roll the pastry into a 12-inch circle, 1/8-inch thick, and fit gently into the pan. Trim the edge a half-inch beyond the rim, fold under and crimp or pinch to make a decorative edge. Prick the bottom with a fork. Freeze the shell for 20 to 30 minutes.

Prepare the filling. Grate the zest from the lemons into a small, stainless bowl. Strain in the lemon juice, then press through as much lemon pulp as possible.

In a heavy, stainless saucepan, beat the eggs, yolks and sugar until just mixed. Stir in the lemon juice and pulp, then the six tablespoons of butter.

Cook, stirring constantly, over low to medium heat, until the mixture comes together and thickens enough to coat a spoon.

Remove from heat, allow to stand five minutes, then whisk briefly to smooth. Set aside.

Preheat the oven to 190 degrees C. Line the frozen shell with aluminium foil, weight with beans or pie weights and bake for 20 minutes, or until set and dry looking. Remove the weights and foil, turn the heat down to 180 and continue baking until shell is golden brown, about 12 to 15 minutes.

Set aside and allow to cool slightly, but leave the oven on.

Spread the prepared filling in the shell and bake for 10 to 15 minutes or until the filling is just set. Remove pie and turn oven to 190.

Make the meringue. Beat the egg whites until frothy, add the cream of tartar and continue beating until rounded peaks form. Beat in sugar and vanilla.

Spread the meringue over the filling, making sure it meets the edges of the crust to make a seal.

Swirl in a design with a knife or spatula and bake for about 10 minutes, or until the meringue is lightly browned.

Allow to cool completely, from one to two hours, but do not refrigerate.

One Bowl Carrot Cake

The tangy, rich cream cheese topping on this cake can travel — even on a hot day. Silky with sour cream, it bakes right over the batter and develops a caramelised flavour reminiscent of Basque cheesecake. As it cools, the deeply browned surface ripples, and the custardy cream cheese layer sets. The carrot cake beneath packs more carrots than most classic versions for a more complex natural sweetness and fine, sturdy crumb. Both batters are mixed by hand in the same bowl, making prep and clean up especially easy.

INGREDIENTS

FOR THE TOPPING:

1 (8-ounce/226-gram) block cream cheese, softened
½ packed cup confectioners' sugar
¼ teaspoon fine sea salt
1 large egg
½ cup/120 grams sour cream

FOR THE CAKE:

Nonstick cooking spray
2 large eggs
¾ cup/168 grams granulated sugar
½ cup/100 grams neutral oil, such as vegetable oil
1 cup/135 grams all-purpose flour
1 teaspoon any combination of ground cinnamon, cardamom, ginger or nutmeg
½ teaspoon baking powder
½ teaspoon baking soda
½ teaspoon fine sea salt

2 packed cups/260 grams coarsely grated peeled carrots (from 3 medium carrots)

PREPARATION

Heat oven to 190 degrees. Lightly coat an 8-inch square baking pan with cooking spray. Line the bottom and sides with parchment paper, and spray again.

Make the topping: Whisk the cream cheese in a large bowl until smooth. Add the confectioners' sugar and salt, and stir slowly with a whisk until no traces of sugar remain, then whisk rapidly until smooth. Add the egg and whisk until fully incorporated, then whisk in the sour cream until smooth.

Using a silicone spatula, scrape the mixture into a pastry bag fitted with a 1/2-inch plain tip or a gallon-size resealable plastic bag, and set aside.

Reserve the bowl, whisk and spatula without washing.

Make the cake batter: Combine the eggs and granulated sugar in the reserved bowl and beat with the whisk until evenly combined. While whisking, add the oil in a steady stream and whisk until emulsified. Add the flour, spice, baking powder, baking soda and salt, and use the spatula to fold into the wet ingredients just until the dry ingredients disappear.

Add the carrots and fold until evenly distributed.

Scrape the cake batter into the prepared pan and spread evenly. If using a plastic bag, snip a 1/2-inch hole in a lower corner. Pipe the topping gently and evenly over the batter to completely cover it. It's OK if it looks bumpy; it will even out in the oven.

Bake until the top is golden brown and a toothpick inserted in the centre comes out with bits of the topping but no cake batter, 50 to 60 minutes.

(If your cream cheese layer doesn't take on very much colour by the time the cake has finished cooking, you can broil it until the top is browned in spots, 1 to 2 minutes.)

Cool completely in the pan on a wire rack. Cut directly in the pan to serve, or slide out of the pan using the parchment paper to cut into squares. The cake can be refrigerated in an airtight container for up to 5 days. Bring to room temperature before serving.

STAYING ON THE HIGHWAY TO WELL

Kickstart's Highway to Well is back, offering all motorcyclists a body and bike Warrant of Fitness event.

There will be guest speakers providing information about rider safety, motorcycle maintenance and rider recovery/rehabilitation.

And a chance to chat with local Ride Forever trainers, discuss safety gear and chat with like-minded people.

These events are held in conjunction with Hurunui, Waimakariri and Selwyn District Councils, Christchurch City Council, and is proudly supported by ACC, New Zealand Police and Canterbury accredited Ride Forever providers.

There will be spot prizes, a couple of major prizes, and nibbles provided.

Hanmer Springs

Helping Hands- Consultancy and Care Services

Senior Home Care Specialist

Hi there, my name is Penny Monteath and I have been a Hanmer resident for the last 6 years. I was bought up on a Farm on the Inland Road so have ended up very close to where life first began for me.

BACKGROUND

I trained as a Registered Nurse and also spent time in the fields of Natural medicine, learning massage and other different therapies along the way. I also obtained my Emergency Medical Technician qualification and was a volunteer ambulance officer at Culverden Station for eight years. I ran a Business with my Husband for 12 years working as a Lab Technician before branching out and starting my own counselling business.

In 2006 I was shoulder tapped to become an Adult Cochlear Implant Rehabilitationist for the Southern Cochlear Implant Programme based in Christchurch, a position I held for 17 years ending December 2021.

I was extremely passionate about this job which was centred around education, communication and teaching people to learn how to listen and hear again after receiving their cochlear Implant. I myself am a bilateral cochlear implant recipient. I also obtained the qualification of a Hearing Therapist during my time on the Programme. I am very passionate about helping people to live their best life no matter what age or stage they might be at. I have seen a need for services to help Seniors in particular, here in the Amuri Basin.

SERVICES I CAN OFFER

- Help with shopping/cooking a meal (and putting some in the freezer)
- Transport to appointments/Venues around Hanmer and beyond.
- Help with Technology – getting down to basics whether it be Phones, basic computer skills, how to do internet banking etc.
- Help with any issues around hearing loss e.g availability of different devices, communication strategies etc
- Respite care
- Wheelchair hire

If any of the above interests you, I offer one free consultation to discuss and assess your needs to see if we would be a good fit.

I look forward to hearing from you
Penny Monteath Ph: 0272233845

Hurunui Tourism Operators

Workshop Day

29th June 2022

Hanmer Springs Hotel

**12.30 – 2.00pm | Creating an Inclusive Destination
with Hurunui Trails and MakingTrax**

Considering over 688,000 Kiwis have a physical disability and nearly the size of New Zealand's population has some form of disability in Australia, 15 million people worldwide, it's time to learn how you as an operator and a destination can open your experiences to a larger diversity of abilities.

2.30 – 3.30pm | Tourism Industry Association

TIA's Advocacy & Engagement Manager, Steve Hanrahan, along with Industry Advocate, Lori Keller will be providing an industry update to Hurunui tourism operators. Members of TIA, along with non-members are welcome to attend. If you have specific questions, please get in touch with Lori (lori.keller@tia.org.nz) in advance.

4.00 – 5.00pm | Hurunui Tourism Update & PurePods Presentation

Quite a bit has been happening recently with our consultation on the Destination Management Plan kicking off and our new domestic campaign, 150 Reasons hitting the market.

The campaign generated submissions of over 500 reasons to visit Hurunui, as well as an increase of 45% in website traffic during the campaign period. There is more to come, and we are keen to talk to you about it in person.

Not sure what PurePods are? Think more than accommodation, think a unique Pure New Zealand experience. Our off-grid glass cabins have a low ecological footprint and clever technology that provide an opportunity for landowners to receive additional revenue with minimal time. We are looking for landowners to partner with. Come along and hear from Business Development Manager Kate Baxter www.purepods.com/purepods-partners

5.00pm onwards | Networking

Hurunui Tourism are covering one free house beer or wine per person.

RSVP to Sacha Beams email marketing@visithurunui.co.nz

Visit

North Canterbury

Recent build cost estimates for the stadium are looking like they will cause a major divide for Christchurch ratepayers. Let's see if we can put together some sort of rational picture and history:

- (a) Lancaster Park comprises approximately 6 ha.
- (b) It was opened in 1881 and closed in 2011.
- (c) Ownership was transferred from the Victorian Park Trust at no cost to the Christchurch City Council in 2008.
- (d) The name Lancaster came from the first owner of the land in 1850.
- (e) The park was called Jade Stadium from 1998 to 2007 and AMI Stadium from 2007 to 2011.
- (f) It was a potato farm in 1945.
- (g) In 1986 "Dire Straits" played there to a record crowd of 64,000.
- (h) How much has the Council spent so far on the potential rebuild: Approximately \$40,000,000.

Now, let's try and look forward:

1. Let's say the final cost ends up being 10% higher than the most recent estimate of \$683,000,000 - that is a final cost of \$750,000,000.
2. The planned completion date is 1 April 2026 - let's push that forward to 1 April 2027 - this will mean Christchurch has had no permanent stadium for 16 years (2011 to 2027).
3. What did the Forsyth Barr Stadium in Dunedin cost on 5 August 2011 - it took two years and three months to build - it's final cost (excluding land) was \$224,400,000, with a capacity of 30,748 seats and an enclosed roof - reasonably similar to what is proposed for the Christchurch Stadium.
4. COVID has affected the Forsyth Barr Stadium returns with the gross annual revenue being of the order of \$11,000,000/year and with its overall expenses being similar. Since 2011 it has some \$8,500,000 of accumulated losses
Around the world these big stadiums have struggled to stand alone financially.
1. Consequently, there appears to be two key questions: (a) How could the Christchurch Stadium be financed satisfactorily from the outset?
(a) How could the Christchurch Stadium be (b)
Once it is up and running can it stand on its own feet financially and cash wise?

6. Possible initial financing:

Total Estimated Cost (\$683,000,000 plus 10% by 1 April 2027) Financed perhaps from:

| | |
|--------------------------------------|---------------|
| Insurance Proceeds Received | \$50,000,000 |
| Government Contribution | \$220,000,000 |
| Other Councils (say two) | \$10,000,000 |
| Sale of Orangetheory Stadium (say) | \$35,000,000 |
| Naming Rights (say) | \$2,000,000 |
| Bank Term Loan | \$100,000,000 |
| Various Other Contributions (say) | \$5,000,000 |
| Special Rates Levy (see PS at end) | \$115,000,000 |
| Shortfall: Christchurch City Council | \$213,000,000 |
| | <hr/> |
| | \$750,000,000 |

7. What might the annual revenue be, say, for the year to end 31 March 2028 (first operational year) based on no "Black Swan" type event (that is no Covid type issues) - this is a very real question which the Council will have to estimate for the public but let's say:

- (a) 33 major events per year.
- (b) Average of 20,000 people per event.
- (c) Average cost of \$25 per person (\$100 for a family of four).

This equation comes out at: $20,000 \times 33 \times \$25 = \$16,500,000$ (GST exclusive).

8. Based on points 6 and 7, what might the first full year's Financial Statements on end 31 March 2028 look like:

a profit and loss basis for the year to \$16,500,000

Gross Revenue (as outlined) Less Estimated Expenses:

| | |
|---|--------------|
| Administration and Marketing | \$500,000 |
| Wages/Salaries, Employees. | \$3,500,000 |
| Insurance and Rates | \$6,500,000 |
| Bank Term Loan (at 4%) | \$4,000,000 |
| Repairs and Maintenance | \$500,000 |
| Other Operating Expenses | \$1,000,000 |
| Rent/Interest - Christchurch City Council | \$500,000 |
| | <hr/> |
| | \$16,500,000 |

9. Suggested Summary:

- (a) These estimated initial financing and the estimated income and expenses are a complete guess. The Council will need to commit their estimates to paper for the Christchurch ratepayers.
- (b) The Council may well find other assets it can sell as well as the Orangetheory Stadium.
- (c) Government, in an election year, may find another \$50,000,000, but it may not also.
- (d) Technically, there will be an annual depreciation claim for Income Tax purposes of perhaps \$5,000,000/year, which is not included in our point 8 simply because it is a non-cash cost - the bottom line here is that the venture will pay little or no Income Tax probably forever.
- (e) It is hard to see how the Council will repay the \$100,000,000 bank term loan we have allowed for except via another special rates levy.
- (f) Worldwide most of these big stadiums really struggle to balance their annual cashflow and it will not matter how good the accounting is and how good the management is with the Christchurch Stadium, the Council may well end up picking up losses over the years - the key will be in limiting those losses, that would seem to be much more important in this case than maximising profits.
- (g) The benefits to the community will be enormous and ongoing, particularly as the Christchurch and the surrounding area gets up to a population of perhaps 500,000. This is a very difficult benefit to measure, but a very real one.

10. Suggested Conclusion:

- (a) Work on a final cost as at 1 April 2027 of \$750,000,000.
- (b) The Christchurch City Council must commit to paper how they see the initial financing could work and how the annual Profit and Loss Account will work. They will be guessing in some areas, but they are the ones with "real skin" in this exercise and have the best data to date.
- (c) How the initial financing is structured will also very much determine the annual profit and loss estimates.

The poster features a vibrant jungle background with various Madagascar characters. At the top, a penguin, a hippo, a lion, and a zebra are visible. The title 'Madagascar' is written in large, green, bubbly letters with a white outline. Below it, 'A Musical Adventure Jr.' is written in a smaller, green, cursive font. The performance dates and times are listed in blue text. A white box contains the ticket information. Below that, the school office details are provided. The director's name is in blue text. At the bottom, there is a small disclaimer and credits. The characters are depicted in a playful, cartoonish style, with some appearing to be peeking out from behind the text or foliage.

Know your Plastic Codes as In Hurunui 1, 2 and 5 ONLY can be Recycled

| Symbol | Acronym | Full name and uses |
|--|---------|--|
|  | PET | Polyethylene terephthalate - Fizzy drink bottles and frozen ready meal packages. |
|  | HDPE | High-density polyethylene - Milk and washing-up liquid bottles |
|  | PVC | Polyvinyl chloride - Food trays, cling film, bottles for squash, mineral water and shampoo. |
|  | LDPE | Low density polyethylene - Carrier bags and bin liners. |
|  | PP | Polypropylene - Margarine tubs, microwave-able meal trays. |
|  | PS | Polystyrene - Yoghurt pots, foam meat or fish trays, hamburger boxes and egg cartons, vending cups, plastic cutlery, protective packaging for electronic goods and toys. |
|  | Other | Any other plastics that do not fall into any of the above categories. For example melamine, often used in plastic plates and cups. |

HANMER SPRINGS TRANSFER STATION
637 Hanmer Springs Road

WINTER HOURS (6 May to 31 August)

| | |
|-----------|--------------|
| Wednesday | 1 pm to 4 pm |
| Friday | 10am to 1pm |
| Sunday | 10am to 1pm |

Out of hours recycling facilities for paper, card, cans, plastics types 1, 2 & 5 only and glass bottles are provided; please ensure recycling is clean, loose and all lids are removed. Soft plastics (i.e. those you can scrunch in your hand) are not recyclable and must be placed in the refuse.

Kerbside refuse and recycling collection –
Monday 8am

Only official refuse and recycling bags will be collected; these can be purchased from Hanmer Springs Service Station and the library and the Log Cabin & Super Liquor

Via the recycling bags clean paper, card, cans and plastics types 1, 2 & 5 only can be recycled.

If in doubt – place it in the refuse to save contaminating recycling.

Non complying bags and recycling bags containing glass and soft plastics will not be collected.

Please Note that HDC garbage & recycling bags are no longer available from the Four Square supermarket . Henceforth, bags will only be available from Hanmer Springs Service Station, the library , The Log Cabin and Super Liquor
